

# AVP Rapid Punch Terminal (RPT) System

Worldwide installations...  
Unsurpassed performance...

Features  
and Benefits

Performance  
Advantages

**1 Bigger & Stronger**  
Size plus AVP's rigid mounting technique means unparalleled wire retention, no terminal push-through and overall superior strength.

**2 Extended Cable Range**  
The larger diameter barrel allows termination of 20-28 gage wire, solid or stranded, and it properly terminates bulkier 110 Ohm Digital Audio Cable.

**3 Multiple Wire Gages**  
The RPT terminal is certified for termination of different wire gages, **even on the same half of the terminal**. The colored arrows show the four mechanically independent slots.

**4 Longer Life**  
The RPT terminal is certified for 300 punch cycles, using 22 to 26 gage wire, facilitating easy and durable re-configuration at any time.

**5 Faster & Easier**  
The wire gripper locates and retains the wire before the punch enabling quick termination with just one hand.

**6 Lifetime Tip Replacement**  
The AVP heavy-duty punch tip is guaranteed for life (and we're still waiting for the first claim).
